

THE *New*

FORD

*Eight*

The Popular Ford, introduced in 1932, has achieved success in all corners of the world. The number seen on the roads to-day speaks volumes for the excellence and popularity of this 8 h.p. car. NOW . . . an even greater success — the NEW FORD "EIGHT."

Its smart appearance — re-designed to meet the modern vogue — comfort, performance and price, makes it Britain's greatest car value. *Come and inspect it in our Showrooms. We shall be pleased to give you a trial run without obligation.*

# Experienced Radiologists Will Marvel . . .

. . . at the surprising amount of useful x-ray energy packed in so small a unit as the inexpensive new VICTOR Model F-3.

While it is the newest thing in x-ray, the F-3 is new only in refinements that make for greater power, for greater convenience in use. The experience gained in making hundreds of the original Model F showed us where even that world-famous design might be improved.

So here is the F-3 with 3.2 times more radiographic power for even shorter exposures. Kilovoltage is now variable for optional techniques. And for those who wish to use the unit alternately as portable and mobile x-ray equipment, a revolutionary new tube stand has been provided. Despite all this, the interestingly low price remains unchanged.

For practical, efficient and convenient portable and mobile x-ray service, the new, more powerful F-3 is worthy of your fullest consideration. Your written request will bring you full particulars, or a demonstration, without obligation.

# **MODERN COD LIVER OIL**

## **as the method of choice**

### **FOR ADMINISTERING VITAMINS A and D**

In view of the widely divergent opinions expressed concerning the dosage and vitamin content of various liver oils, the proprietors of 'SevenSeaS' cod liver oil wish to remind the medical profession that on January 1st, 1936, the British Pharmacopoeia Commission laid down not only a definite dosage, but also a definite standard of vitamin content for cod liver oil.

The dosage was fixed at a minimum of 15 minims (a quarter teaspoonful) three times a day, and the vitamin content was standardised at not less than 600 International Units of Vitamin A and not less than 85 International Units of Vitamin D per gramme.

In "SevenSeaS" Standard Oil, the practitioner has at hand a cod liver oil of the highest quality, fresh, easily digestible, and with a uniform vitamin content guaranteed to conform to the standard of the British Pharmacopoeia. The oil is rendered from the livers at sea as soon as the fish are caught (a process impossible with any other fish liver), instead of waiting until the ship is back in port and the livers consequently stale. The high quality of "SevenSeaS" cod liver oil, and the uniformity of its vitamin content arising from its method of preparation make it possible to prescribe only small doses which cannot give rise to acidosis.

These attributes are still further increased in the case of "SevenSeaS" High Potency cod liver oil, which is guaranteed to be four times as rich in vitamin values as the standard oil of the Pharmacopoeia. *With this oil available the practitioner who wishes to prescribe a particularly small dosage has the advantage of using a fresh cod liver oil without going far in excess of the standards laid down by the Pharmacopoeia regarding vitamin content.*

This High Potency Oil is not reinforced or in any way treated to increase the vitamin content. It is, simply pure natural oil obtained by selection from the richest livers on the best fishing grounds.

All "SevenSeaS" cod liver oil is tested and packed in strict conformity with British Pharmacopoeia requirements. Samples of the High Potency Oil, the Standard Oil, and the High Potency Oil in Capsules, will be supplied on request.

# ADRENALIN

(P., D. & CO.)

PARKE, DAVIS & CO. introduced Adrenalin to the medical profession in 1901. During the thirty-seven years that have elapsed, they have manufactured it continuously, and their long experience enables them to offer a *natural* product that is unsurpassed in effectiveness and purity.

Adrenalin (P., D. & Co.)—the original and well-tried preparation—is extracted from the medullary portion of selected adrenal glands. The isolated substance is then standardized by both physiological and chemical methods to secure full activity of the finished preparation.

Medical men can make sure of obtaining Adrenalin products that are potent, uniform in action, and reliable, by specifying "P., D. & Co."

Full particulars of Adrenalin (P., D. & Co.) and its uses will be supplied on request.

# *Your Winter Clothes!*

The value of the statement, "Good clothes are a definite asset," cannot be over-estimated. . . . When we say "good clothes" we mean clothes which possess that indefinable something called "style" . . . that master touch which distinguishes them at a glance from those produced by "multiple tailors," and with which too many men appear content to-day. If you wish your new winter suit or overcoat to express your individuality, you must choose your tailor and your cloth with care and judgment; then, and then only, will your appearance bear that stamp of quality so remote from clothes made to a price. We make only "quality clothes," in which quality is apparent in the cut, the cloth, and the style.

*The new winter patterns, which comprise the very latest in style and colourings, are now available. We cordially invite your inspection with confidence.*

## Immaculate—

To ensure that your clothes are always immaculate, it is necessary to have them expertly cleaned at regular intervals — stains and creases can only be removed by skilful Dry-Cleaning and Tailor-pressing — constant brushing is not sufficient to retain their original looks. We are equipped with the latest plant and undertake to give that perfection in finish which only individual treatment bestows.

## WARDELL v. KENT COUNTY COUNCIL

*In recent court proceedings —  
Wardell v. Kent County Council  
—the statement was made that a  
tin of Antiphlogistine had ex-  
ploded.*

*As the case has aroused a good  
deal of interest and some com-  
ment, we should like to call  
attention to a letter from the  
Clerk to the Kent County Council.*

ADMINISTRATION OF THE COUNTY OF KENT

SESSIONS HOUSE,  
MAIDSTONE,

2nd August, 1938

Dear Sirs,

With reference to your letter of the 22nd ultimo, you will appreciate that the County Council does not accept responsibility for the statements made in the press reports regarding the above case.

I would say, however, that the article being handled by Miss Wardell at the time of the incident which formed the basis of her claim against the Council was not manufactured by the Denver Chemical Manufacturing Company.

Yours faithfully,

(Signed) W. L. PLATTS,  
Clerk of the County Council.

Messrs. Lamartine Yates & Morgan,  
Lincolns Inn Chambers,  
40-43 Chancery Lane,  
London, W.C.2.

**JAMES BAIRD & CO., LOCAL SECRETARIES**

---

The business of the British Medical Bureau, which is conducted in accordance with the general policy of the British Medical Association, is divided under the following heads:—

### **TRANSFER OF PRACTICES AND PARTNERSHIPS**

Medical practitioners wishing to dispose of practices, or desiring to take partners, are advised to negotiate the business through the British Medical Bureau. Vendors may depend upon receiving introductions only to eligible and *bona fide* purchasers. All information is treated in strict confidence. Full and trustworthy information regarding practices, partnerships, etc., for disposal, supplied gratis to purchasers.

### **ASSISTANTS and LOCUM TENENS**

Assistants and locum tenens can be secured at short notice. It is the foremost aim of the British Medical Bureau to ensure that only the most trustworthy and reliable locums and assistants are sent out.

### **VALUATION AND INVESTIGATION OF PRACTICES**

We undertake all work associated with the valuation and investigation of practices

INSURANCES EFFECTED. FINANCIAL ASSISTANCE ARRANGED FOR APPROVED  
APPLICANTS FOR PURCHASE OF PRACTICES AND PARTNERSHIPS

The Bureau has long been favourably known to the medical profession throughout the United Kingdom as a thoroughly trustworthy and successful medium for the transaction of every description of medical business, and the directors have every confidence in recommending practitioners in Northern Ireland to consult the local secretaries, Messrs. James Baird & Co.

● Recommended with every confidence to the profession by the British Medical Association as a thoroughly trustworthy medium for the transaction of all medical agency business

## **Wear a Shirt that is** *Professionally Laundered*

There is something different, finer, about the smooth, firm feel of a professionally laundered shirt — it sits more snugly about neck and shoulders, and you know it will remain clean longer.

That is the advantage of professional laundering. Our modern presses and improved methods of washing give your shirts a lasting body which resists soiling and insures better and longer wear. You will feel ever so much better dressed in shirts washed and finished the DEVONSHIRE way.
